- 3 Abstract: This document is a template for use by authors sending manuscripts to the Turkish Journal of Electrical
- 4 Engineering & Computer Sciences. It also contains important information on the paper style. The title of the manuscript
- 5 must be written in lower case except for the first word and proper nouns. Author names must be given in full, with
- 6 surnames (family names) all in capitals. Author addresses must be given in English in the following order: Department,
- Faculty, University, City, Country, with numbers in superscript after each author name to indicate his/her address.
- 8 Footnotes must not be used for addresses. The corresponding author's email address must be clearly given, marked with
- 9 an asterisk. The abstract must not be longer than 300 words and must clearly state the study's purpose and results. The
- manuscript's title and abstract must not contain mathematical formulae. The abstract must not contain any reference
- 11 citations. The key words must be separated by commas and should not include acronyms.
- 12 Key words: Electronics, instructions for authors, manuscript template

## Acknowledgment/Disclaimers/Conflict of interest

- 14 Please include any necessary acknowledgments or disclaimers on the title page, as well. Names of funding
- 15 organizations should be written in full. Do not repeat them in the main document. All authors should also
- disclose any conflict of interest that may have influenced either the conduct or the presentation of the research.

## 7 Informed consent

- 18 Manuscripts reporting the results of experimental investigations conducted with humans must clearly state that
- 19 the study protocol received institutional review board approval and that all participants provided informed
- 20 consent in the format required by the relevant authorities and/or boards. Please reference the relevant review
- 21 board(s) and approval code(s) here.
